# NUUO®

The Intelligent Surveillance Solution
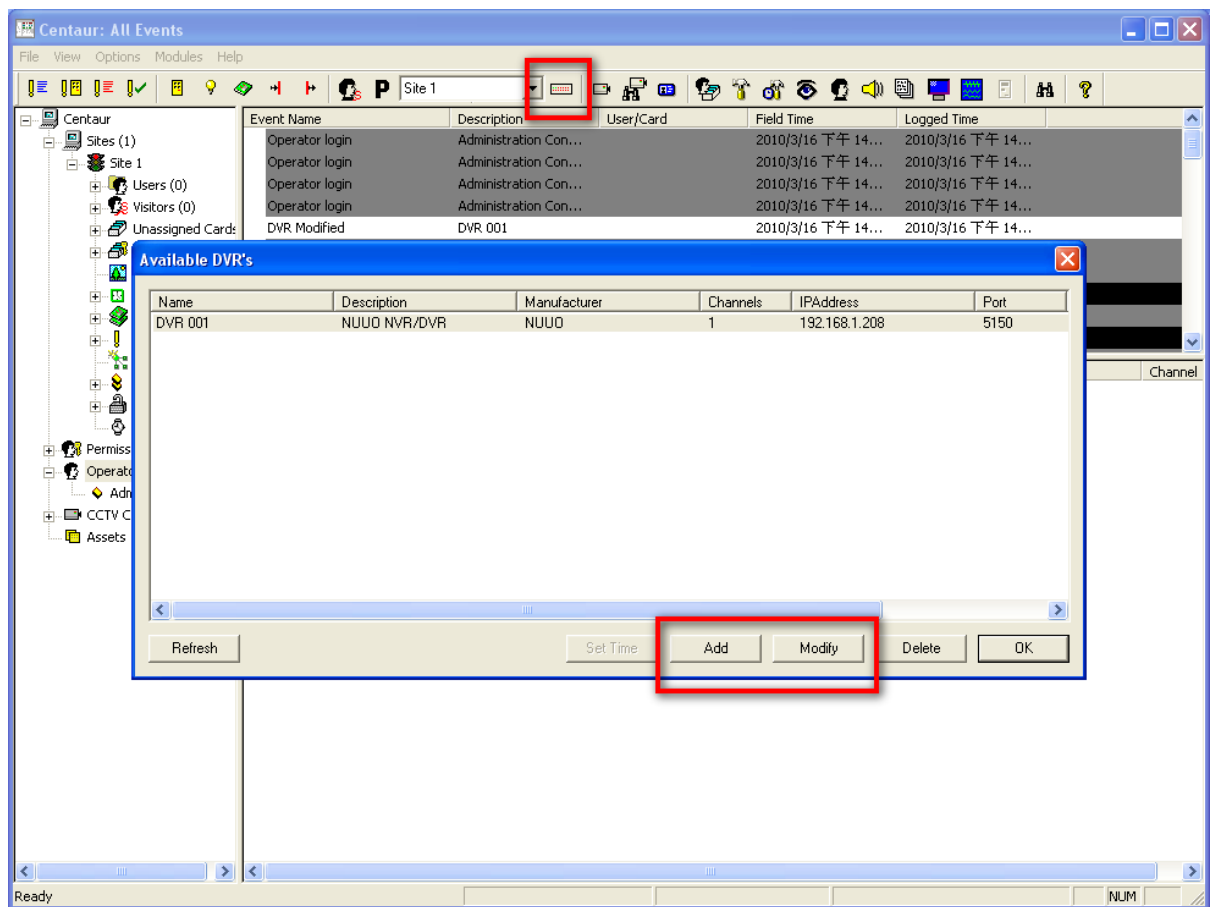

NUUO MainConsole & CDVI Integration
User Guide

<The interface>

The three buttons stand for DVR configuration, live view, playback.

Click on add DVR or modify existing DVR settings.

Update the name, description, IP address, and ports.

By default, 5150 is for remote live view and 5160 is for playback.

Go to Operators. Click on Properties.

Specify the user name and password to DVR.

NUUO NVR/DVR/Hybrid NDVR System

Click on live view button
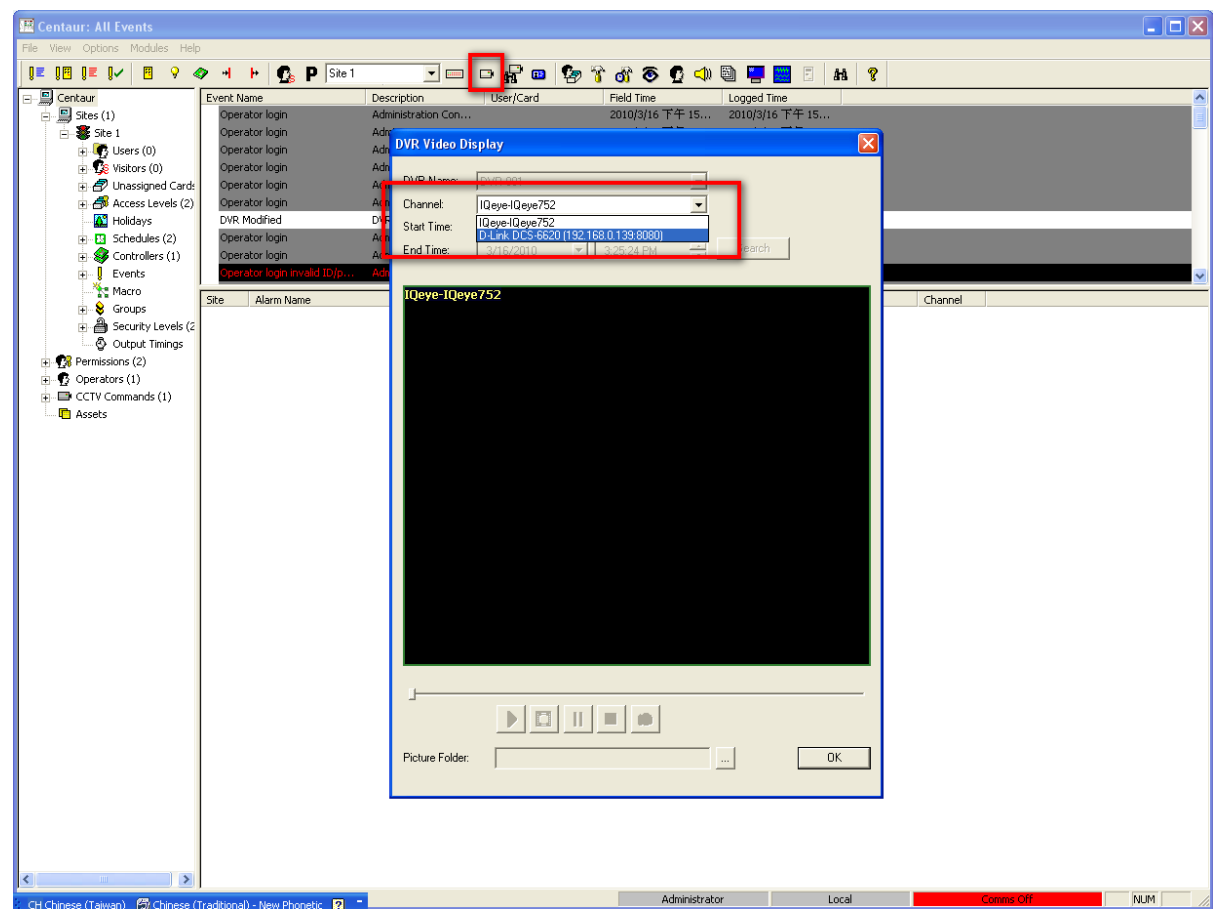

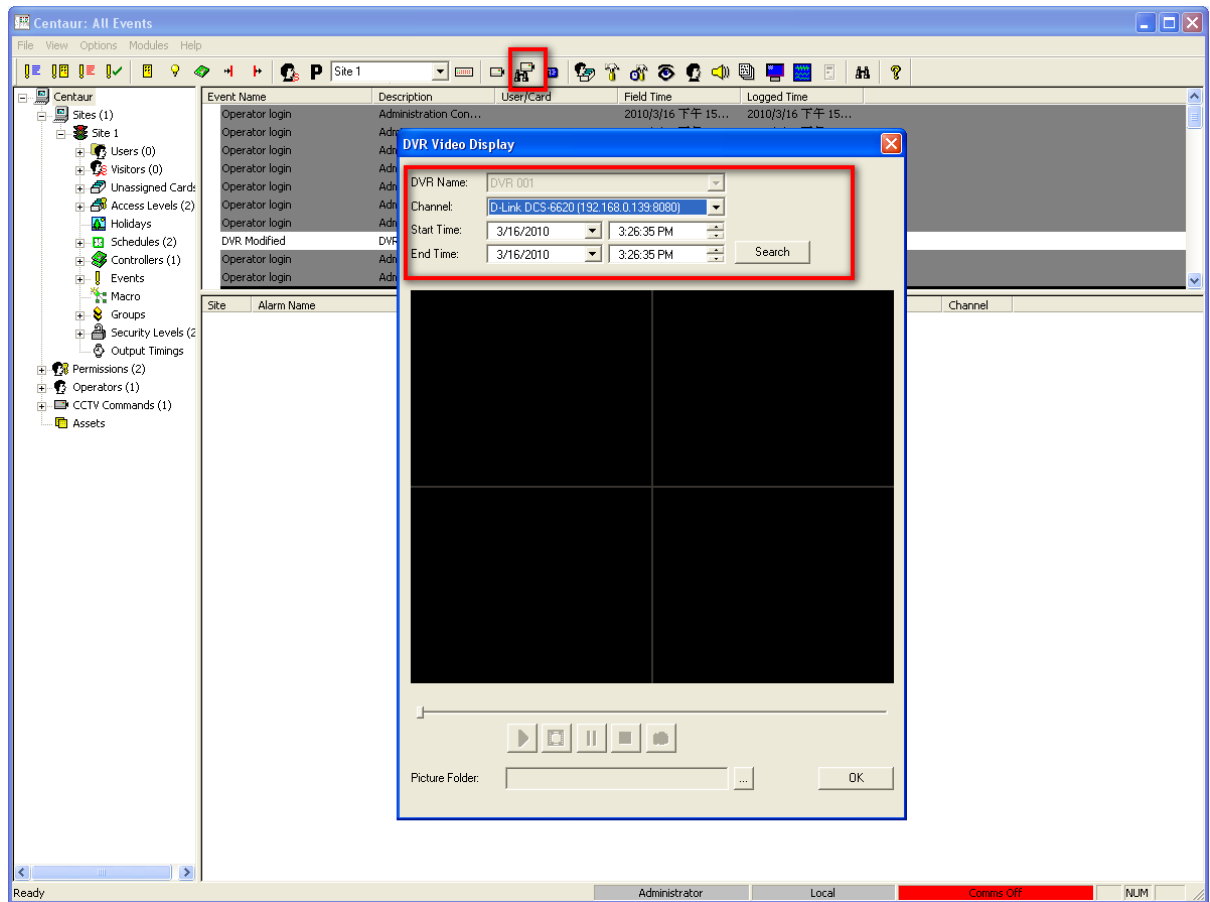

Select the camera you want and then you'll see live streaming
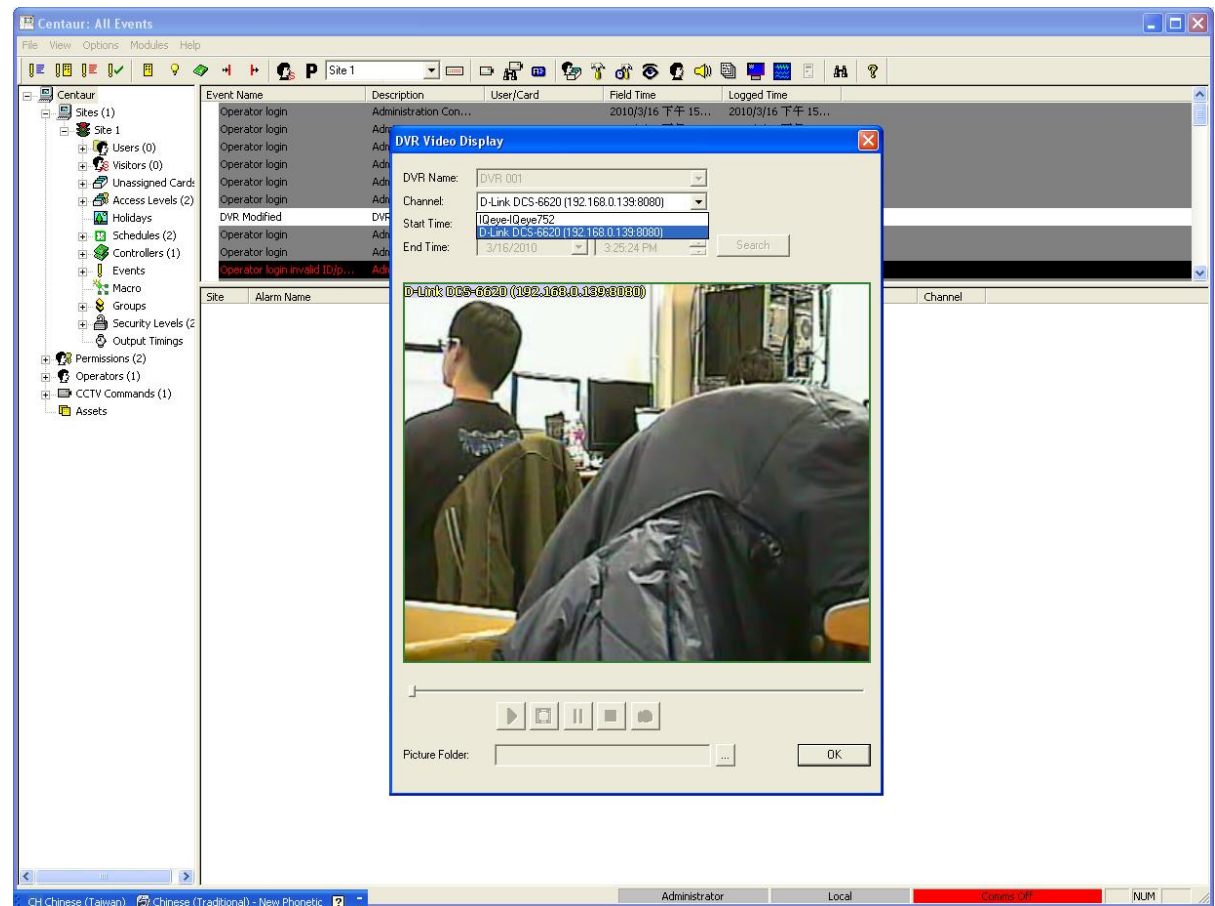

Click on playback button and give the start time and the end time

And then you can see recorded videos.
